

Dear Valued Customer,

**Congratulations, you have received the keys to your New Home!**

Zurcorp is pleased to let you know that your Alarm System has been already programmed and ready to go.

To make things easy for you, we have programmed your alarm with a master code. Please refer to the enclosed instructions that will guide you through changing your PIN.

If Alarm Remotes have been purchased, these are already programmed and enclosed.

- Button Number 1 arms and disarms the Alarm System
- Button Number 2 arms and disarms downstairs only (Night Mode)
- Button Number 3 opens and closes Garage Door (If option purchased)
- Button Number 1 & 2 pressed at same time is Panic

User Manuals for all of our products will be placed in the top kitchen drawer.

If you have had a Smart Home HUB installed, you will also find a cable connection diagram outlining what your HUB should look like.

If you have any further questions regarding the above, please contact our Head Office Monday to Friday 8.30am to 5.00pm.

Kind regards

Zurcorp Australia Pty Ltd

## MIRVAC HOMES
